Youth Channel Master Date Night Chinese - SP Workshop

HOME Centre YTM has organized a movie appreciation programme on the 10 February 2026. It has been noted that many ethnic minority youth predominantly concentrate on their own cultural activities, often overlooking mainstream Chinese culture. This recent release of "Avatar 3" offers a unique opportunity to foster a broader cultural dialogue, as the film is both educational and reflective.

Youth Academic Study Group DSE Math class. HOME Centre YTM has organized DSE Math class from 7 January to 18 February. It has been observed that many ethnic minority YTM students experience significant anxiety regarding the HKDSE, particularly in mathematics. This anxiety stems from a lack of confidence in the subject, often expressing difficulty in comprehending the material taught by their school teachers.
